

Committed to Our Community Dedicated to Your Health

2024 ANNUAL REPORT

Beloit Health System Is Committed to Our Community and Dedicated to Your Health

Emergency Department

COMPREHENSIVE CARE FOR YOU

At Beloit Health System, **YOU** come first. We are dedicated to your and your family's needs by providing total care when needed. Our Emergency Department at Beloit Memorial Hospital is a full-service, Level III Trauma designation, the highest in Rock County. We are staffed by board-certified emergency physicians, who have on-site support from the region's best cardiac, orthopedic, gastroenterology, and pulmonology specialists. In addition, we have direct access and affiliation with the University of Wisconsin Emergency Department, which has the highest level of trauma care in Wisconsin. All here for You. When seconds count, we offer you and your family the peace of mind that we stand ready to take care of your emergencies.

Cancer Center

HERE FOR YOU

The Beloit Health System Cancer Center, located on Lee Lane in Beloit, is here for **YOU**. When a difficult diagnosis arises, you want to receive treatment close to home. We have a state-of-the-art facility staffed with world-class physicians and nurses. Our UW affiliation ensures that you receive care from the No. 1 Cancer Center in Wisconsin and one of the top 50 in the United States.

Primary Care

EASY ACCESS FOR YOU

We believe **YOU** deserve the best care close to home and easy access to your provider. Your primary care physician is your health care navigator and advocate. When your health demands swift, responsive, and accurate care, your primary care physician ensures your safety and security, fostering healing and confirming the best results.

The Gold Family Care Center is a \$6.2 million investment in our Community. This is one of the largest expansions and renovations planned for the Beloit Clinic. The Gold Family Care Center will provide the highest quality in primary care with the newest technology and patient-centered service structure, making it unlike any other primary care in the region. This renovation will ensure we retain and recruit the best primary care providers ready to serve **YOU**.

Private Suites

BECAUSE YOU DESERVE IT

We asked, and you responded. The conversion to all private inpatient suites at the Hospital has begun and will be completed early 2026. You deserve all private suite rooms. The new suites will provide privacy for your care and the space needed for your family and loved ones to support the healing process.

WHEN EVERY SECOND COUNTS

EMERGENCY DEPARTMENT

For patients facing critical medical emergencies, time can be the difference between life and death. In the moments when every second counts, Beloit Health System's Emergency Department sets itself apart from other medical facilities, with a comprehensive approach that keeps critical care local and immediate.

"We are a full-service emergency department and hospital, and we're able to get you access to any of the specialties and care that you need in an emergency to help save your life," explains Dr. Andrew Dean, Emergency Medicine Medical Director. "With other facilities in the area, if you need further care outside of the emergency department, you're going to have to be transferred outside of the city, possibly outside of the state, to get your care."

From cardiac emergencies to orthopedics to complex obstetric interventions, Beloit Health System offers an unprecedented range of immediate specialist support. Dr. Jamie Frantz, an

orthopedic surgeon, adds, "When patients show up to the emergency department, they have access to GI, orthopedic and cardiac specialists. If someone comes in with left-sided chest or shoulder pain, it could be heart-related, it could be multiple things."

Dr. Tsu-Hon Wang, a gastroenterologist, notes, "It's good to have people in-house. When you have specialists on board, you can contact them and get opinions on things you may not normally see. Then the patient gets more tailored, immediate care and rapid response."

Take cardiac care, for instance. As Dr. Dean explains, "We're able to get you to the catheterization lab and get that blood vessel opened up in 20 to 30 minutes. Another facility might have to put you in an ambulance, transfer you somewhere else. That's going to take an extra 30 or 40 minutes." Dr. Leo Egbujiobi, a cardiologist, emphasizes this: "The longer you delay is the difference in survival."

The facility's capabilities extend across multiple specialties. Dr. Neel Karne, a general surgeon, highlights the unique advantage, "The great thing about the Beloit Health System is that it has all of the technology, the advancements that you would find at a city hospital or a tertiary care center. We have access to the newest laparoscopic equipment and even two robotic platforms."

Dr. Binn Jatta, an OB-GYN specialist, adds, "A seamless connection allows for rapid access to specialists, essential diagnostic tools and advanced treatment options, safeguarding both maternal and fetal health. In times of urgency, every second counts, and having a fully equipped ED creates a vital lifeline for our patients."

Regularly, the team encounters situations where minutes make the difference between life and death. As Dr. Egbujiobi states, "The sooner they get critical care access and therapy initiated by seasoned, skilled providers, the better the outcome."

Beyond specialists and technological advances, what truly sets the Beloit Health System's Emergency Department apart is its deep commitment to our community. For Dr. Melissa Amberger,

"The great thing about the Beloit Health System is that it has all of the technology, the advancements that you would find at a city hospital or a tertiary care center."

— NEEL KARNE, M.D.

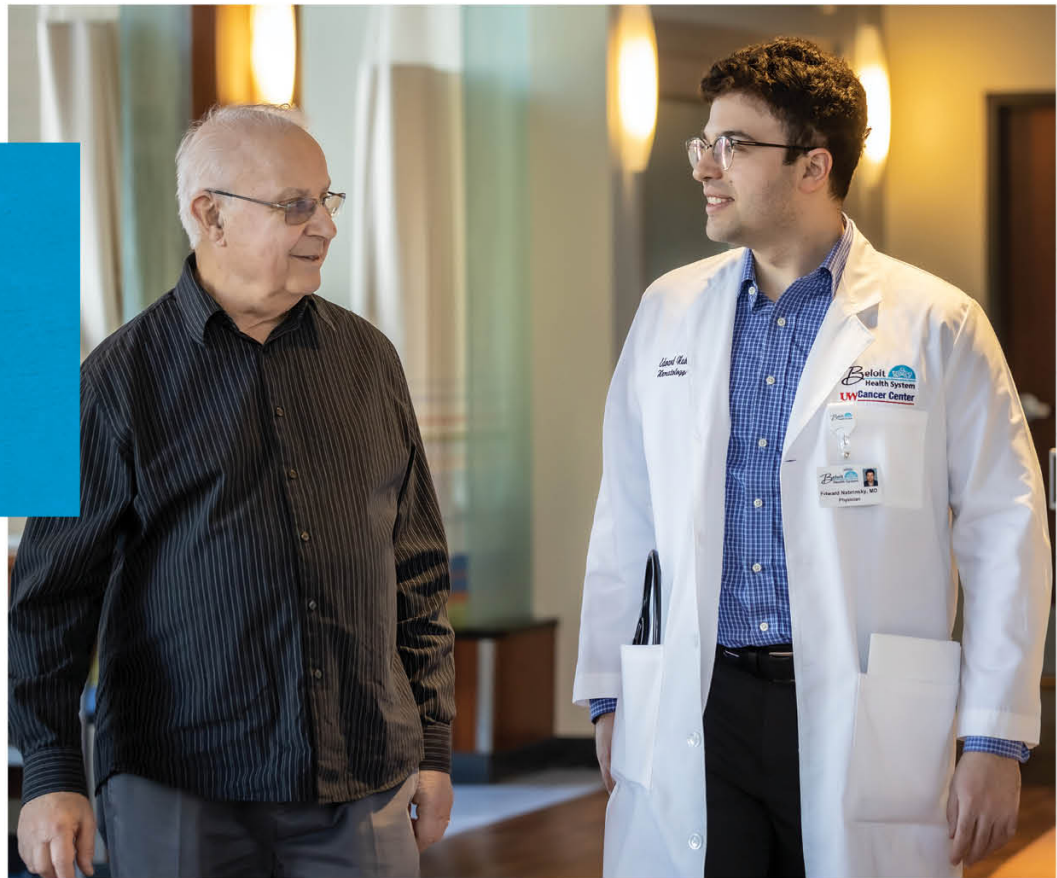

a general surgeon, it means a lot, "I wanted this kind of job. I love that I see people in the community," she shares. "I've had patients come up to me and say, 'Hey, you fixed this.' Some of my cancer patients, I've run into them at the store. It's very rewarding in a way I didn't expect." This outlook is the driving force behind Beloit Health System and turns medical care from a clinical transaction to a meaningful human experience.

More than just a medical facility, Beloit Health System's Emergency Department represents a dedication to our community members and comprehensive, immediate care – proving that local expertise is the most powerful medicine. ●

Cancer Care Close to Home

HOW GETTING TREATMENT LOCALLY CAN IMPROVE OUTCOMES

“It gives you the sense that people here care for each other, they look out for each other, and they’re just so proud to be a part of the Beloit community.”
– EDWARD NABRINSKY, M.D.

Dick Johnson’s acute myeloid leukemia diagnosis not only changed his life but required biweekly visits to Madison for treatment. The 50-mile, hourlong journey each way became increasingly difficult for Dick and his wife, especially during severe winter weather. But everything changed when he discovered he could receive the same quality of care just minutes from his home at the Beloit Health System Cancer Center.

“I live a mile from here,” Dick explains. “I come in once a week and they do labs, and then, based on the report of the lab, they give me an injection ... then I’m done for the week.”

The difference isn’t just in convenience but in personalized care. “I really like coming here because I felt like there was a more personal interest in how I was doing. I got to know the people here, they got to know me,” Dick said.

The relationship between Dick and his physician, Edward Nabrinsky, M.D., exemplifies the center’s approach to patient care. “Dr. Nabrinsky came and he is just really a great person,” Dick shares. “He’s easy to communicate with and seems to take a real interest in how my care is going.”

Beloit Health System collaborates with the University of Wisconsin Carbone Cancer Center, ensuring that patients in Beloit have access to cutting-edge treatments and specialized expertise the same as they would in Madison, without having to travel far from home.

Dr. Nabrinsky, a board-certified hematology and oncology specialist at the Cancer Center, believes strongly in providing community-centered care. “It is so important for the people of Beloit and our community to know they can get the most advanced care, consistent with what is offered at other academic centers and big university institutions, right here in our community.”

For Dr. Nabrinsky, practicing in Beloit means creating genuine connections. “It gives you the sense that people here care for each other, they look out for each other, and they’re just so proud to be a part of the Beloit community.”

Beyond medical treatment, the Beloit Health System Cancer Center offers comprehensive support including cancer support groups, integrative therapy, occupational and physical therapy, and counseling – all to make a difficult journey more manageable.

“Getting a cancer diagnosis is a very scary thing,” Dr. Nabrinsky acknowledges. “We always want to provide reassurance and help patients and their families understand what the diagnosis means ... being able to do that here in our community, allowing somebody not to have to travel to another place on top of everything else they have going on, is so important.”

When asked to describe his experience at the Cancer Center in one word, Dick didn’t hesitate: “Thankful. I am just very thankful that I can be here in Beloit and get the care that I need with people that I trust and feel comfortable with.” ●

HIGHEST IN THE REGION FOR QUALITY + SAFETY

We are once again proud to announce that Beloit Health System has earned the highest possible rating for patient quality and safety from one of the nation’s most respected healthcare watchdogs. The Leapfrog Group has awarded Beloit Health System its 3rd consecutive “A” rating based on more than 30 performance measures that evaluate errors, accidents, injuries and infections, as well as the systems hospitals have in place to prevent these incidents.

The “A” rating is an accomplishment on its own, but Beloit Health System was also the only health system in southern Wisconsin and northern Illinois to receive the highest rating. This achievement is a reflection of our tireless efforts to provide the absolute best patient care to our communities, and we should all be enormously proud of earning this rating. ●

THE CORNERSTONE OF COMMUNITY HEALTH

For John and Becky Wong, Beloit Health System is not just a healthcare provider but a part of their community heritage.

The Wongs have witnessed firsthand how primary care serves as the cornerstone of a community's well-being. Becky worked as a physical therapist at our Rehab Unit after college and John has volunteered with us for 10+ years, now serving on the Board of Trustees.

"Primary care for most people is their initial introduction to any health system," John explains. "It is also the gateway to the other departments in that health system."

This gateway is getting a significant upgrade through the development of the Gold Family Care Center. Named after our now-retired Kenneth Gold, M.D., this renovation will make the fourth floor of the Beloit Clinic the centralized location for all primary care providers.

Cheryl Miller, M.D., a primary care physician, emphasizes the essential role these services play in community health. "Primary

care is the cornerstone to your healthcare. It provides accessible care that focuses on prevention and early detection of health problems, as well as management of acute and chronic health conditions."

This philosophy of providing comprehensive, accessible care has created generations of patients throughout the area. "We have always used BHS for our family's healthcare needs," Becky shares. "We are grateful to have had many excellent care providers and experiences here for many, many years."

Beyond routine checkups, vaccinations and common treatments, Beloit Health System focuses on building relationships that last. Through decades of care, the Wongs' providers have been present for life's most significant moments – tracking family health histories, offering guidance through different life stages, and becoming trusted confidants. John's involvement on Beloit Health System's Board of Trustees and Becky's long-standing volunteer work with Beloit Regional Hospice have only deepened these connections, transforming routine medical care into a genuine sense of community. ●

Gold Family Care Center

The upcoming renovation to the care center embodies Beloit's patient-first philosophy. "It will be yet another area of BHS that is attractive and welcoming, and shows the commitment of the organization and the community to optimizing patient and staff satisfaction," John Wong, lifelong patient and Board of Trustees member, emphasizes.

This redesigned space will feature wider hallways and doorways, ensuring improved accessibility. Innovative exam tables with foot-pedal adjustments and strategically relocated nursing stations will reflect the clinic's thoughtful approach to patient comfort. What's more, these improved capabilities at the Gold Family Care Center will help us recruit and retain healthcare talent, further strengthening our ability to provide the best possible care.

Dr. Kenneth Gold, Retired

"As a physician and member of this community, I believe this project demonstrates to the entire Stateline area that we as healthcare providers care about our patients, our staff members, our community's health and our collective future."

– CHERYL MILLER, M.D.

Specifically, the expansion will accommodate ten new providers, significantly enhancing healthcare access for the entire Stateline area. Dr. Miller, a primary care physician, reflects, "As a physician and member of this community, I believe this project demonstrates to the entire Stateline area that we as healthcare providers care about our patients, our staff members, our community's health and our collective future." ●

**GOLD
FAMILY
CARE CENTER**

Where Tradition Meets Tomorrow

Comfort and Care Go Hand In Hand

At Beloit Health System, we believe that listening to our community is key to providing the best possible healthcare experience. As always, we're committed to making sure you feel your feedback has been heard and transformed into action. That's why we're proud to announce that we are continuing the renovation of our inpatient rooms into all private suites – a project that prioritizes your needs and enhances patient care.

You asked for a more supportive environment for healing, and we heard you loud and clear. This transformation is not just about aesthetics; it's about creating a healing environment that reflects our focus on your needs.

“We are thrilled to be investing in the future of our patients and our community.”
– SHARON COX
VP, CNO

“We are thrilled to be investing in the future of our patients and our community,” said Sharon Cox, vice president and chief nursing officer, at Beloit Health System. The new private suites will allow for a more personalized, comfortable experience, and we’re excited to witness the positive impacts this will have on your care.”

The project will be complete by early 2026. At Beloit Health System, your input is vital to us, and we are grateful for your support as we turn your feedback into action so we can address your needs and provide the best possible care. ●

NORTHPOINTE EXPANSION TO IMPROVE CARE

The new Neighborhood Hospital project in Roscoe, Illinois, and the private room project at Beloit Memorial share a common goal: enhancing patient care and experience. As we expand the number of private rooms at the main hospital, our overall bed capacity at our Beloit Hospital will go down, making the new NorthPointe expansion the perfect way to help improve care for our patients.

Currently, our patients in Illinois have to travel to our Beloit Hospital to seek care. The Neighborhood Hospital's 10 inpatient private beds, however, will allow these patients to get the care they need closer to home and will free up beds in Beloit. The project continues to make progress as we approach the next meeting with the Illinois Health Facilities and Services Review Board.

“We are humbled by the outpouring of support from our community, which remains extremely strong,” says Dr. Roger Kapoor, senior vice president. “Ensuring timely and accessible care for the residents of the Stateline community remains a top priority and this project helps us provide essential services to keep care local and achieve the best outcomes for our patients.” ●

Financials

2024 OUTLOOK

Beloit Health System management is responsible for the integrity and objectivity of all financial information included in this Annual Report. The Health System's statements have been prepared in accordance with generally accepted accounting principles and include amounts that are based on the best estimates and judgments of management. Wipfli has audited the Health System's financial statements and has expressed its unmodified opinion.

BELOIT HEALTH SYSTEM FOUNDATION

Beloit is here for you, our neighbors, and our friends. We continue to serve the Stateline area with cutting-edge technology and one-of-a-kind facilities. The Gold Family Care Center, a \$6.2 million campaign, exemplifies our commitment to the community and dedication to your health. The Beloit Health System Foundation wants to thank all our donors, volunteers, and Board members who continue to make it all possible.

Commitment and Dedication are in the DNA of both Beloit Health System and our community. We continue to provide the best care for the people we love. We thank you for your steadfast belief that our community deserves a strong, independent health system. Your support allows our physicians and teams to practice medicine as it should be, providing individualized care for each patient in world-class facilities.

With your help, our Foundation raised more than \$2.5 million in 2024, which helped us achieve these incredible accomplishments throughout the year:

MAY 2024: The third Community Safety Event was held on the Hospital front lawn. More than 800 parents, grandparents, and children attended the event.

JUNE 2024: The fourth Annual Pulling for Hospice event was held and raised more than \$25,000.

JULY 2024: The Foundation hosted the Pro-Am golf outing. We had a record-breaking year, raising more than \$200,000, which supports the Gold Family Care Center.

SEPTEMBER 2024: The Olympian Society event was held on the second floor of Beloit Memorial Hospital. Dr. Karne presented at the event, and attendees had a chance to experience “Horace,” our da Vinci technology.

NOVEMBER 2024: The Doves & Diamonds Hospice gala event was held, the 20th year of the event.

In 2024, we celebrated our donors and brought back the Bourbon Raffle, which had an amazing turnout, raising over \$100,000 to support hospice care.

Throughout 2024, the Steering Committee for The Gold Family Care Center raised \$3 million in pledges and cash donations. This is an amazing accomplishment and a job well done!

Chair, Foundation Board

The Olympian Society

The Olympian Society derives its name from the tradition of outstanding medical care Beloit Health System began in its original location on Olympian Boulevard. That tradition carries forward into today. The word Olympian also denotes commitment and excellence in performance, which represents our healthcare mission to the Community. The Olympian Society membership reflects donors’ cumulative giving to the Beloit Health System Foundation.
