

COMMITTED TO OUR COMMUNITY  
DEDICATED TO YOUR HEALTH

2023  
ANNUAL  
REPORT

**BELOIT HEALTH SYSTEM IS  
COMMITTED TO OUR COMMUNITY  
AND DEDICATED TO YOUR HEALTH**

**BELOIT HEALTH SYSTEM IS DEDICATED TO YOUR HEALTH**

*Our Commitment is never more evident than in the Expert and Compassionate Care we provide through our Emergency Department:*

***When seconds count we are here for you and your families ...***

We are here 24/7/365 to take care of you and your family. Our ER is a Level III Trauma Center, the highest in Rock County, and due to our partnership with the University of Wisconsin Hospital and Clinics, we have a direct tie with the state's highest-level trauma center.

***When seconds count, we are here for you ...***

It starts with our Commitment to provide Training and Medical Control to our local EMS caregivers. Our partnership with the city and township of Beloit ensures when help arrives, the paramedics and EMTs are trained in the latest lifesaving techniques and are in direct communication with our team at the ER.

***When seconds count, we are here for you ...***

When you arrive at the ER you will be cared for by board-certified physician specialists in emergency medicine. This team is backed by board-certified, fellowship-trained physicians in cardiology, orthopedics and surgery to provide immediate care in our state-of-the-art Heart Hospital and operating suites ... ***because when seconds count, it matters, and we are here for you and your family.***

***Our Commitment to the Community is also evident in our unwavering focus on Patient Quality, Safety and Satisfaction ...***

which is why we are making a significant investment in converting all of our inpatient rooms to private suites to provide the privacy and space to deliver the Best Care that you and your family deserve.

***Our Commitment to the Community is also demonstrated by our continued implementation of new programs and services,***

like our new Freestanding Birth Center located on our NorthPointe Campus, which is a one-of-a-kind service in Southern Wisconsin and Northern Illinois. We understand the importance of empowering women in their birth experience and are proud to provide this service to our community.

**BELOIT HEALTH SYSTEM IS DEDICATED TO YOUR HEALTH**

***Beloit Health System is Dedicated to your health by ensuring we provide the latest in technology,***

including state-of-the-art robotic-assisted surgery through the addition of the latest da Vinci robotic surgical technology. We are also adding the Intuitive Ion advanced pulmonology care robotic system. We are the first in the region to have this technology. The Ion enables our pulmonologists to have pinpoint accuracy when performing lung biopsies to help diagnose and treat lung cancer earlier, which leads to better outcomes and cure rates.

***We are Dedicated to Your Health by Improving Access to Care:***

***New Ortho Direct*** – Express Orthopedic Injury Clinic at our Lee Lane facility. Treatment and access to our five-star orthopedic physician specialists in joint replacement, sports medicine, shoulder and wrist, foot and ankle, physical medicine, arthritis and pain management. Most recently we also added spine surgery by one of the region's top physicians.

***Expansion of our Urgent Care services*** – In addition to Convenient Care at the Beloit Clinic and Immediate Care at NorthPointe, we are expanding our Urgent Care services in our Emergency Room. This provides access to care at a lower price point, with shorter treatment times.

***Expansion of our primary care providers via the Creation of the Gold Family Care Center*** in honor of Dr. Ken Gold, who established a legacy of excellence in primary care in his 52 years of practicing in Beloit. This will be a renovation of the fourth floor of the Beloit Clinic that will update and expand space to add 10 new primary care providers. Your primary care physician is your partner, your cornerstone in good health, helping to navigate serious concerns and keeping you healthy with routine checkups.

We are proud of our Commitment to our Community and Dedication to Your Health. We are thankful and humbled by your faith in us to provide you and your family the Best Care!

President and CEO

**Jim Fisher**  
Chair, Board of Trustees

# EMERGENCY DEPARTMENT

## DEDICATION FROM CRISIS TO RECOVERY

On November of 2023, Anita Johnston suffered an unexpected heart attack. "My heart stopped four times and they started electric shock three times, all within an hour," she explained.

Fortunately, Anita found herself in the care of Beloit Health System's Level III Trauma Emergency Department team.

"I'm so glad the medical staff could take care of my situation here, and I was very impressed with the facilities. Sorry I had to use them, but thankful."

For her daughter, Jennifer, the scenario was understandably frightening, not knowing what the future may hold. But the comprehensive care and dedication Anita received at BHS was a welcome relief.

“I really felt like it was over for me. The determination of the doctors was just amazing.”

Anita Johnston & her daughter Jennifer

"I was surprised they weren't going to have to transfer her anywhere. I didn't know anything at all about the kind of care that was available," Jennifer said of the Hendricks Family Heart Hospital on the fourth floor. That sentiment carried forward to Anita's time in the ICU for recovery. While Anita received the care she needed, Jennifer was pleased by the high level of support and communication from the BHS staff. "They had the right balance between serious and professional, but they also brought a sense of humor and friendliness. On the few occasions when I couldn't be there, someone always called to give me an update."

The BHS team's dedication to Anita is something she'll never forget. "I recovered very well in just a few months. And from what I'm told about the condition I was in when I arrived and the care I received, I'm just so amazed by the attention I was given."

# MEDICAL CONTROL

Beloit Health System collaborates with local EMS agencies to ensure quality of care through monthly education meetings, supply coordination and policy development.

"We have medical control with these partnerships. Members of our community receive the best quality care from the moment EMS arrives to the time they get to the emergency room. It starts from the very beginning," Emergency Department Nursing Director Nicole Kovarik said. "We design a schedule. It's pediatric one month, maybe stroke the next."

The ED and EMS teams also frequently conduct run reviews, covering patient engagement from pickup to drop-off, and if they were admitted to the hospital. "What happens after drop-off is often unknown to them. It completes the picture," Kovarik explained. "It also allows them to review what went well and what's an opportunity for improvement."

Nicole Kovarik | Emergency Department Nursing Director

## BELOIT MEMORIAL HOSPITAL EARNS AN 'A' HOSPITAL SAFETY GRADE FROM THE LEAPFROP GROUP

The Leapfrog Group is a national nonprofit watchdog that sets standards for excellence in patient care. Beloit Memorial Hospital was the only hospital to receive the "A" rating in South Central Wisconsin and North Central Illinois. Leapfrog assigns an "A," "B," "C," "D" or "F" grade to general hospitals across the country based on over 30 national performance measures reflecting errors, accidents, injuries and infections, as well as the systems hospitals have in place to prevent harm.

**"Our team's commitment to patient safety and providing the highest level of care at our facilities continues to be our most important priority,"** said Roger Kapoor, M.D., Senior Vice President of Beloit Health System. **"I am extremely proud of our team members for the exceptional performance and collaboration they demonstrate on a daily basis."**

Hallie Wunn | Registered Nurse

## CONGRATULATIONS TO OUR FIRST-EVER DAISY AWARD WINNER HALLIE WUNN!

The DAISY (Diseases Attacking the Immune System) Award is an international recognition program that honors and celebrates the skillful, compassionate care nurses provide every day. Hallie is an RN in our Packard Family Care Center and demonstrated compassion, guidance, and reassurance every step of the way with a special growing family.

# ORTHOPEDICS

COMMITTED TO OFFERING COMPREHENSIVE CARE

Dr. Kenneth Klein

**"It's a complete program for anyone in our community who has these needs."**

All the planning time was worth it for Orthopedics Medical Director Dr. Kenneth Klein.

"For over 30 years we've been building a comprehensive program that specializes in orthopedic and sports medicine services for our community," Dr. Klein began. "With Dr. Zdeblick joining our team, it completed the circle for us."

The addition of Dr. Thomas Zdeblick, an orthopedic spine surgeon, brings the latest techniques to Beloit Health System. He joins Dr. Alfred Rosche, a pain management specialist, along with Dr. Klein, to provide the BHS community with the most advanced neck and back pain care.

"From beginning evaluation to all the diagnostics and MRI test scans, oral and injection medications, therapy, and

now surgical care, if needed, the complete care package is all right here," Dr. Klein said.

It would have been easy to simply continue providing noninvasive treatments and then make referrals elsewhere, Dr. Klein suggests, adding, "To develop this program and put together the proper talents, BHS shows its commitment to quality of care for the community!"

Dr. Alfred Rosche

Dr. Thomas Zdeblick

**BHS OPENED ORTHO DIRECT, A WALK-IN CLINIC CONNECTING PATIENTS WITH SPECIALISTS.**

# ADVANCING TECHNOLOGY

DEDICATED TO INNOVATIVE HEALTH SOLUTIONS

In 2023 Beloit Health System added two new advanced technologies to provide earlier diagnosis and improved treatment procedures for patients: the da Vinci robotic surgical system and Ion robotic bronchoscopy.

## da Vinci Robotic Surgical System

“The da Vinci machine takes laparoscopic (abdominal) surgery to the next level. It allows us to visualize much better with microscopic equipment,” said BHS surgeon Dr. Neel Karne. “It also reduces the amount of time a patient has to stay in the hospital.”

This new technology elevates the capabilities of BHS surgeons considerably, allowing them to perform a greater number of procedures. The da Vinci machine also allows other surgeons in the Beloit community to offer this service, benefiting a great number of residents who find themselves in need.

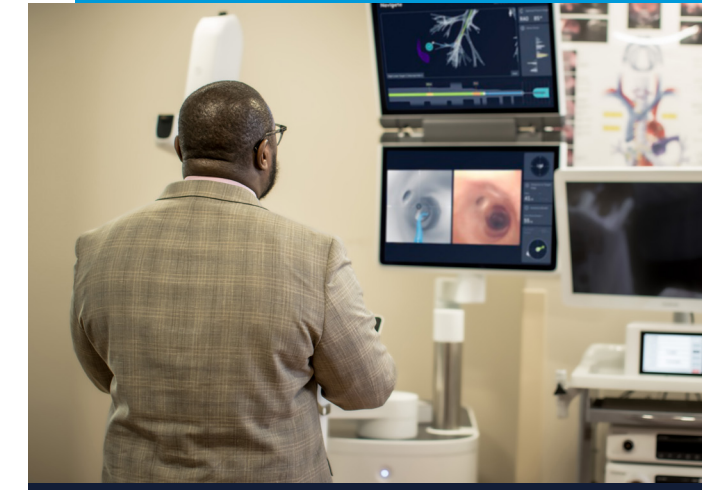

Additionally, the da Vinci machine serves as a valuable recruitment tool for BHS that benefits the entire area, Dr. Karne explains. “Most physicians coming out of school in surgery are trained on this platform. Having the da Vinci here at BHS allows us to attract the brightest and most talented and bring those skills to our community.”

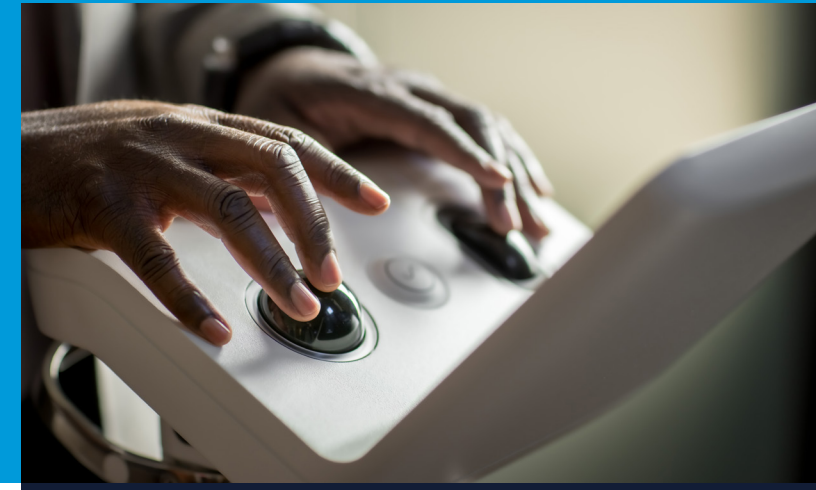

da Vinci Robotic Surgical System

Dr. Neel Karne | BHS Surgeon

Dr. Joseph Kittah | BHS Pulmonologist

Ion Robotic Bronchoscopy

## Ion Robotic Bronchoscopy

Ion is a robotic-assisted system that performs a closer, less invasive examination of suspicious lung nodules, reaching all areas of the lungs to obtain a biopsy.

“We’re committed to early diagnosis, so Ion is an invaluable tool,” said BHS pulmonologist Dr. Joseph Kittah. “The earlier the diagnosis, the better the outcome for the patient.”

The new robotic bronchoscopy reduces the chances of multiple biopsies prior to lung cancer diagnosis, lowering instances of complications. “We simply go after these nodules,” Dr. Kittah added.

The Ion system also brings faster diagnosis for BHS patients, with no waiting time when results are determined elsewhere. “We’ve brought convenience and expert-level care to our community,” he said.

Dr. Kittah credits the administrative staff for the addition. “We’re so grateful to the leadership we have at BHS,” Dr. Kittah said, adding, “The Ion machine is one more way the organization shows their dedication to the patient’s health.”

BHS Vice President Nommo Donald emphasizes the importance of the Ion system for the Beloit area specifically. “Based on our community assessment, lung cancer is at an all-time high. With this technology, Dr. Kittah’s team can go into the smallest of nodules and do earlier staging, detection and treatment to allow for greater survivorship.”

“We’re so excited to bring this new technology to our community to allow for targeted diagnosis and advanced treatment.”

-Vice President Nommo Donald

# NORTHPOINTE BIRTH CENTER

DEDICATED TO PROVIDING AN ALTERNATIVE BIRTH EXPERIENCE

Beloit Health System is pleased to introduce a new member of our community. Ivan James Danielson is the first child to be welcomed into the world at the NorthPointe Birth Center.

"I had my dream water birth," Ivan's mother, Britnie, said. "I couldn't have accomplished it without my midwife, Jamie, and the wonderful staff."

Throughout the process, the Danielsons say they really enjoyed the flexibility offered at the facility. "It feels more like home compared to a hospital. We appreciated the option of having our family here," Ivan's father, Josh, said. "It's more freedom than you would get anywhere else."

Britnie added, "It made me comfortable knowing that this was a safe alternative. If problems arose, we would be transported to the hospital and receive the next level of care."

Now the proud and happy parents, Britnie and Josh, recommend NorthPointe Birth Center to area families considering a natural birth. In Josh's words, "Beloit Health System knows the community wants alternatives. It takes commitment to make a change and step away from the way things have been done to give people different options."

Ivan James Danielson  
BORN 03.04.2024

Ivan's parents, Josh and Britnie

# GOLD FAMILY CARE CENTER

WHERE TRADITION MEETS TOMORROW

Beloit Health System is renovating on the fourth floor to create the Gold Family Care Center, named to honor our renowned primary care physician, the recently retired Dr. Kenneth Gold, M.D.

Over a 50-plus-year career, Dr. Gold's approach was about personal connection. "They weren't my patients. They were my neighbors," Dr. Gold explained. "It's relationships. Focusing on the person, not the disease," he added.

"I've made more than 8,000 house calls," he continued, stressing the importance of visiting patients in their own setting. "I would see how they are as a person. My first question was 'What would you like to talk about today?'"

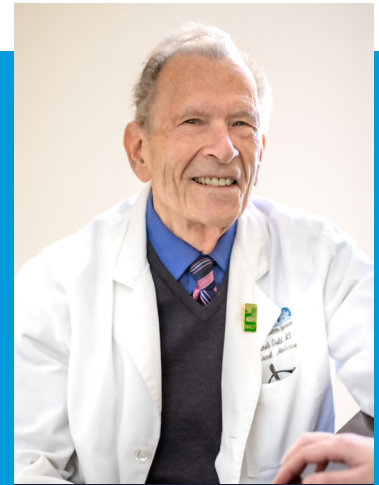

Therese Mueller-McLain recalls Dr. Gold's work ethic when caring for her mother, Joan. "He really came into play as she aged," Therese began. "She was looking for the best doctor to guide her through health issues that started to arise. His reputation preceded him. Highly recommended."

"She had a large personality. Lots of energy," Therese said of her mother. "Dr. Gold learned how to work with her and didn't start the conversation with what he thought. He was very patient and compassionate."

Therese believes primary doctors like Dr. Gold are the cornerstone of health care. "He set an example. As you age and develop health problems you need a navigator, an advocate, who can connect with the patient and family members."

Therese's Mother, Joan

Dr. Kenneth Gold, M.D.

**"Not everybody bonds with a doctor. My mom and Dr. Gold understood each other's point of view. They respected one another."**

**- Therese Mueller-McLain**

# FINANCIALS

## 2023 OUTLOOK

Beloit Health System management is responsible for the integrity and objectivity of all financial information included in this Annual Report. The Health System's statements have been prepared in accordance with generally accepted accounting principles and include amounts that are based on the best estimates and judgments of management. Wipfli has audited the Health System's financial statements and has expressed its unmodified opinion.

# BELOIT HEALTH SYSTEM FOUNDATION

SERVING AND SUPPORTING OUR COMMUNITY

*Because of you, our neighbors and friends, we continue to serve the stateline area with cutting-edge technology and one-of-a-kind facilities. The Beloit Health System Foundation wants to thank all our donors, volunteers and board members who continue to make it all possible.*

Commitment and Dedication is part of the DNA at Beloit Health System and our community. We continue to provide the best care for the community we love. We thank you for your steadfast belief that our community deserves a strong, independent health system. Your support allows our physicians and teams to practice medicine the way it should be, providing individualized care for each patient in world-class facilities.

With your help, the Foundation raised over \$1.5 million that was distributed to the Health System in 2023. Here is a brief year in review:

- **May:** The second annual Community Safety Event was held on the hospital front lawn. Over 800 parents, grandparents and children attend the event.
- **June:** The third annual Pulling for Hospice event was held and raised over \$25,000.
- **July:** The Foundation hosted the Pro-Am golf outing, welcomed Kyle Westmoreland as our pro and raised over \$139,000. The dollars raised go to support the Freestanding Birth Center.
- **September:** The Olympian Society event was held in the NorthPointe Freestanding Birth Center. It was a sneak peek before the actual grand opening in October.
- **November:** The Doves & Diamonds Hospice gala event was held. In 2023, we celebrated the Hospice staff with a presentation and program titled "A Day in the Life of a Hospice Worker." We added the Bourbon Raffle to the event and had an amazing turnout, raising over \$90,000 to support Hospice.

## THE OLYMPIAN SOCIETY

The Olympian Society derives its name from the tradition of outstanding medical care Beloit Health System began in its original location on Olympian Boulevard. That tradition carries forward into today. The word Olympian also denotes commitment and excellence in performance, which represents our healthcare mission to the Community. The Olympian Society membership reflects donors' cumulative giving to the Beloit Health System Foundation.
